Changing Cultural Traditions

The phenomenon that mark the change of cultural Traditions in Europe is

From the fourteenth to the end of the seventeenth century towns were growing in many countries of Europe. A distinct 'Urban Culture' also developed.

Florence, Venice and Rome became centers of art and learning. The invention of printing at the same time made books and prints available to many people. A sense of history also developed in Europe.

Religion came to be seen as something which each individual should choose for himself. The church's belief was overturned by Scientists.

The revival of Italian cities

Western Europe was being reshaped by feudal bonds and unified under the Latin Church and eastern Europe under the Byzantine Empire, and Islam was creating a common civilisation further west, Italy was weak and fragmented. The ports on the Italian coast revived.

Independent City States - Florence and Venice

- Rich merchants and bankers actively participated in governing the city.

Universities and Humanism

The universities of Padua and Bologna had been centers of legal studies.

Increased demand for lawyers and notaries

By the early fifteenth century, the term 'humanist' was used for masters who taught grammar, rhetoric, poetry, history and moral philosophy. The Latin word *humanitas*, from which 'humanities' was derived, had been used many centuries ago by the Roman lawyer and essayist Cicero. The term 'Renaissance Man' is often used to describe a person with many interests and skills.
